"LEADER GRADUATE"

This method of Graduating is a cheap style of marking, with the principal lines extending only half way around the Graduates, while the minor lines are only placed on the front of the Graduates.

On this style of Graduate there are not as many lines and figures as on the other methods of Graduating.

This a cheap method of Graduating and is acceptable in practically all states where the new "Bureau of Standards" ruling has not been enforced.

This Graduation can be furnished on either the "Bureau of Standards" shape, as illustrated, "Cone" or "Perfection" shapes. Beaker Shape can also be furnished.

Each Graduate is packed in a separate carton and is guaranteed accurate.

10-9-30

We have your letter of the 7th, reference to order #3801, for GOODMAN KLEINER COMPANY, and wish to advise 45% is the correct discount as we agreed to only extend 50% on orders where the same item called for less package lots and on orders where they ordered enough goods to make up package lots, or else if most of the items ordered were package lots at 50% off and if a few items were shown at a little less package quantities we would make entire order less 50%.
