PRISTINE LINE
Revision of Prices

CIRCULAR LETTER #155
TO ALL AGENTS:

We have found it possible to make a reduction in our Pristine prices, as we have now produced this line for a sufficient length of time to be able to get the proper results in production.

Another thing that has made this design very high priced is the fact that it has all been made with cut tops or edges, such as on Bowls, Relishes, etc. We find that the majority of the trade objects to the cut tops, due to the fact that they chip so very easily. Cutting the top edge is very expensive so by eliminating this we are able to make quite a reduction in our prices. Therefore, we are eliminating this cut edge--in fact, we have been eliminating it for a long time and no one has objected, even at the high prices.

We are enclosing a new pricelist in which you will find a very marked reduction in all prices. These reductions you will notice run any place from 10% to 33 1/3%.

We want to specialize on the Pristine for Fall business, as it is an elegant line for the Holidays. This should be exceptionally good at this time due to the fact that similar goods from Czecho have been cut off and it is impossible to obtain them any longer.

This is particularly good for Fall and most any department store can handle a limited collection of it. Therefore, put forth your best efforts on this line during the fall months and be sure to carry a good strong display of samples.

Yours truly,
THE CAMBRIDGE GLASS COMPANY
W.C.McCartney

July 10, 1939

CIRCULAR LETTER #156
TO ALL AGENTS:

We wish to call your attention to the revised prices for Pristine Stemware as shown on the new price list for Pristine sent with C/L #155.

Note that the price of the plain Stemware has been reduced from \$10.50 per dozen list to \$9.40 per dozen list. The former net price at the extreme discount was \$4.20 per dozen which made the usual retail price \$9.00 per dozen. The new net price is \$3.75 per dozen which allows a retail price of \$7.50 per dozen, a good price.

Naturally, the object in making the reduction in the prices of the Pristine line is to increase the volume.

Of course this can only be done by the retailers reducing their selling prices, so it is up to you to see that these reductions are made in accordance with the reduced cost prices. Therefore, please check the store prices very carefully and see that we get the advantage of this reduction.

Yours truly,
THE CAMBRIDGE GLASS COMPANY
W.C. McCartney
